2016 Capital Improvement Projects

Well 1 – The 50,000 gallon ground storage tank at Well 1 had deteriorated over its 54 year life span to the point where it was no longer in compliance with TCEQ standards. This project will be completed March 15, 2017. This tank should last another 50 years with proper maintenance.

In addition to repairing the tank, both the well pump/motor and the distribution pumps/motors were upgraded with more energy efficient versions, the well house was reworked to optimize water transfer to the overhead storage tank at Well 5, and the control panel was upgraded.

Well 2 – With the help of our engineer (Eddie Daniel), the well pumps/motors were replaced with more energy efficient versions and re-plumbed the well house.

Other Projects –

- We added approximately 1 mile of new lines in the system in 2016.
- We negotiated with Master Meter to replace \$34,000 worth of meter dials at no charge.
- We are in the process of collecting GPS data on all 500 customer meters and 115 valves.
- We installed a fire hydrant on FM 513, just north of I-30.

Under the recommendation of Texas Rural Water Association, Texas Commission on Environmental Quality, and the United States Department of Agriculture, we implemented a capital improvements fund. The above projects were paid for using the capital improvements fund, without having to borrow money, raise the base bill rate, or raise water rates.

Board Meetings

Our Board of Directors meet the 3rd Tuesday of each month at 6:30 pm, in our office located at 117 W Main Street. Please join us to stay up to date on the latest projects and proposals put before the board.

Board of Directors

Our Board of Directors meet the third Tuesday of each month at 6:30 PM at our office located at 117 W Main Street. If you have any comments or concerns, please join us at one of our monthly meetings.

Pleas McKee – President

Bill Jordan – Vice President

Frank Owens – Treasurer

Dale Graham – Director

Lynn Sutherland – Director

Office Hours & Emergency Contact

Monday - Thursday from 1 - 5 PM

Carter Ketcham – 903.413.0158

Staff Members

Carter Ketcham - General Manager

Brandon Hill – Operator in Training

Emily Cabrera – Office Manager

Sign-Up for Alerts

Have you signed up for our alert system? Go to our website, www.campbellwsc.com And click 'Sign Up for Alerts' By entering your email address or cell phone number you will be sent an email or text message when there will be a water outage.

Help Us Update Our Records

Each month when we read the water meters, we have the ability to identify customer leaks. We do our best to contact each customer who has a leak, but we cannot do so if we don't have a good phone number for you. Give us a call or send a note with your payment to make sure we have your current phone number.

Online Bill Pay

To pay your water bill with a credit or debit card call our office or go to our website for more details. [903-862-3760](tel:903-862-3760) campbellwsc.com
